SUMMARY

Software Engineering graduate from FPT University with hands-on experience building scalable web applications. Deep expertise in backend development with .NET, C#, and RESTful APIs, complemented by frontend proficiency in Next.js and React. Co-founded a tech startup and successfully acquired active users while establishing corporate partnerships. Seeking a Full Stack Developer role to design robust backend architectures and deliver user-centric software solutions.

WORK EXPERIENCE

Intern Backend Developer, BRB Specialized Software Solutions Jan 2025 - May 2025

Job Description

- Engineered 40% of the backend architecture and RESTful APIs for the Superdong Ferry Ticket Booking system.
- Streamlined development workflows across the engineering team, accelerating deployment cycles and improving delivery times.
- Resolved complex business logic issues and mitigated system performance bottlenecks to support high-volume user traffic.
- Collaborated with frontend engineers to overhaul the user interface, significantly improving application usability.

Co-founder, Presist July 2025 - May 2026

Job Description

- Architected core frontend interfaces and scalable backend services for the company's transaction management platform.
- Partnered with industry leaders, including Sony Vietnam, to execute technical implementations and drive product expansion.
- Directed business development and financial planning initiatives, securing ~250 active users and generating 6,250,000 VND in total revenue during the initial launch phase.
- Established strategic partnerships with university faculties and corporate clients to accelerate market adoption.

Financial Consultant, Manulife Vietnam Life Insurance Contract Jan 2025 - Present

Job Description

- Advise clients on tailored insurance solutions and long-term financial planning strategies based on comprehensive needs assessments.
- Manage the complete policy lifecycle from initial enrollment through claims processing, ensuring high client retention.
- Cultivate a professional network of senior executives and industry leaders to expand the business portfolio.
- Maintain professional financial consulting licenses issued by the Ministry of Finance of Vietnam

EDUCATION

Bachelor of Software Engineering at FPT University

Oct 2022 - July 2026

- GPA: 7.5/10 (Equivalent to 3.0/4.0)
- Successfully completed an interdisciplinary startup-based graduation project, combining software development, entrepreneurship, and business strategy in a real-world environment.
